The RPB® PX4 Air is a robust and versatile Powered Air Purifying Respirator (PAPR) that provides clean breathing air to the full range of RPB Safety’s industry leading respirators. Benefit from the safety of clean breathing air without the restriction of attached airlines whether you’re welding, grinding, painting or in a laboratory. Designed to increase your productivity.
The ultimate powered air purifying respirator

As you know, many of the demanding jobs that require respiratory protection also require portability. How can you ensure your employees are safe, comfortable and productive in these demanding environments? The RPB PX4 Air is a robust and versatile Powered Air Purification Respirator (PAPR) that provides clean breathing air to the full range of RPB Safety’s Industry leading respirators. Whether you’re welding, grinding, blasting, painting or in a laboratory, the RPB PX4 is the respiratory solution for you.

The PX4 optimizes user safety, comfort and portability. It is CE certified and exceeds the requirements of AS/NZS, so the user can enjoy the safety of clean breathing air without the restriction of attached airlines, giving them complete flexibility to move around as their job requires.

Applications Include: Spray Painting, coating and confined space applications * Pharmaceutical manufacturing * Chemical, pesticide and materials handling * Chemical stripping * Waste Management * and many more.
Breathe easier

The ultra-efficient multi-speed fan draws air through the air inlet scallops, then through an optional spark arrestor which eliminates any sparks, the air then continues through the pre filter which removes large particles to enhance the life of the cartridge. It is then circulated through the high efficiency cartridge providing you with clean, breathable air.

LED system control interface provides information such as fan speed, battery life and warnings.

Inlet Scallops

Spark Arrestor

Pre Filter

Filter Cartridge

Super flex breathing tube with secure bayonet connection

Highly efficient filter cartridge provides maximum filtration
Air flow and filter cartridge condition can be checked with the easy to use flow control tester.

Surface or wall mountable charger locks the battery in place.

Long life, lightweight, Lithium, rechargeable battery. Operates up to 13 hours on a single charge. Has a quick test button to view the current battery charge.
